

CC in the Cloud Technical Community (Cloud-TC) – Meeting Minutes

7:56 AM PDT 10/2/2024

Call to Order: 0802
Meeting Lead: Joshua BRICKMAN
Attendees: 16
Member Roster: 83
Next Meeting: Wednesday October 16, 2024

Highlights:

~

Old Business:

- Review of previous meeting minutes by Josh B.

New Business:

- Josh B presented a draft timeline detailing Cloud-TC progress to be included in his presentation for ICCC.
- Brandon H led the GitHub issue review.
 - o Reviewed Issue #163 *“German Scheme Comments: CCitC Suggested Inputs to a Security Problem Definition, OE.TRUSTED_PLATFORM_ADMINISTRATOR”*.
 - Discussion on what might be included as “guidance documentation” which is referenced in the ‘OE.TRUSTED_PLATFORM_ADMINISTRATOR’ section of the guidance document.
 - This section to be updated as follows:
“Trusted Platform Administrators are assumed to follow, and act consistently with, the underlying cloud authorization collateral for Trusted Platforms.”
 - Issue tagged as “Question” and “To Incorporate”.
 - o Reviewed issue #164 *“German Scheme Comments: CCitC Suggested Inputs to a Security Problem Definition, Guidance Documentation”*.
 - Guidance Document Page 44 paragraph 1 is updated to remove *“Each CSP that is tested shall provide instructions for deployment of the TOE”*.
 - Issue tagged as “Question” and “To Incorporate”.
 - o Reviewed Issue #165 *“German Scheme Feedback: Guidance For Test Environments on Cloud Infrastructure”*.
 - Discussion on what responsibility labs may have when it comes to creating offerings for customers to test in a cloud environment.
 - Garrett N talked about the potential challenges with Lab (CCTL) accreditations (NVLAP) as they do not directly address cloud-based lab environments which may impact the ability for a CCTL to conduct evaluations in that manner.
 - Additional work is needed on this topic and as such, the Cloud-TC has delayed addressing several issues that pertain to dealing with lab specific guidance/instructions.

CC in the Cloud Technical Community (Cloud-TC) – Meeting Minutes

- Not all TOE developers will procure cloud resources for Common Criteria Evaluations and certain CCTL's may wish to facilitate this hosting for cloud evaluations.
- Best practices for test environments to expand on these controls for various stakeholders may be forthcoming in future CCitC publications.
- Issue tagged as "Question" and "To Incorporate".
- Reviewed issue #166 *"German Scheme Feedback: Vulnerability Assessment Methodology"*.
 - Discussion on the possible in-scope vulnerability testing metrics that are specific to a cloud scenario/environment.
 - Guidance Document page 47 will be updated to include language that discusses the consideration of relevant deployment guidance for cloud and cloud attack vectors, using public storage buckets as an example.
- Brief discussion on the potential cancellation of the October 30th meeting to accommodate travel for those attending ICCC.

Questions/Follow-ups:

~

End of Meeting – Adjourned 0900 PDT
