

CC in the Cloud Technical Community (Cloud-TC) – Meeting Minutes

7:51 AM PST 11/13/2024

Call to Order: 0803
Meeting Lead: Joshua BRICKMAN
Member Roster: 83
Next Meeting: Wednesday December 11, 2024

Highlights:

- Review of ICCC in Doha, Qatar.
- Next meeting cancelled due to USA Thanksgiving holiday.

Old Business:

~

New Business:

- Josh provided an overview of ICCC held in Doha, Qatar.
 - o Several presentations related to cloud by folks from various countries.
 - o EUCC was the dominant topic since there are still many unknowns about the transition to EUCC and how it will function with respect to mutual recognition and the CCRA.
- Feedback received from the Australian scheme will be addressed after the release of the next iteration of the Guidance Document.
- Josh shared a few slides that were part of his presentation at ICCC, which proposed a suggested order PP's to be updated for Cloud evaluation use cases.
 - o Starting with MDM-PP, followed by GPOS/OSPP, Virtualization, App Software, and GPCP.
 - Discussion around this particular order and that MDM is number one because it's actively being worked on as a result of the Microsoft Intune pilot evaluation currently underway.
 - From a practical standpoint, it might make sense for App Software to be higher up the priority list since it would address SaaS products which could be the more likely scenario for cloud evaluations.
- Reviewed open issues in GitHub.
 - o Issues tagged as "question" were prioritized.
 - o Reviewed Issue #149 *"German Scheme Feedback: Guidance for Evaluators"*
 - Tyrone S provided a good response that refers to CC:2022 Part 1, Page ix, Para 6.
 - No objections to this response and will therefore be included in the response to BSI.
 - o Reviewed Issue #150 *"German Scheme Feedback: TOE Identification"*
 - This comment is already addressed in Section "CPU Equivalency". No changes to Guidance Document needed.
 - o Reviewed Issue #159 *"German Scheme Feedback: Determine Impacts on SARs, 3rd issue"*

CC in the Cloud Technical Community (Cloud-TC) – Meeting Minutes

- Discussion around the AVA section of the Guidance Document and that it should not be overly prescriptive as it is still dependent on PP and scheme requirements.
 - Jade commented that there should still be some additional guidance here.
 - This comment TBD for continued conversation at next meeting.
- November 27th meeting cancelled due to USA Thanksgiving holiday. Next meeting to resume on December 11th.

Questions/Follow-ups:

~

End of Meeting – Adjourned 0900 PST
