New Business:

- Josh announced that a vote will be called on the official release of the next version of the Guidance document.
 - o An announcement with further voting details will be posted on GitHub, CCUF Portal, and via email to Cloud-TC members.
 - o Voting eligibility sections in the ToR were reviewed to address organization vote eligibility and vote counting process.
 - o The voting period will be two weeks in duration, closing end of day on Tuesday March 4th. Results will be shared on the next call (March 5th).
 - o If a fatal flaw is discovered by a member, an issue must be logged in GitHub forthwith.
- Discussion on communication back to the German Scheme regarding their feedback
 - o Some questions remain open at this time, which will require further consideration.
 - o Discussion on whether submitting written responses or holding a meeting to discuss our responses directly with the scheme would be appropriate.
 - o The CC in the Cloud Github page is public, so providing hyperlinks to the issues list might be most efficient.
- Reviewed Issue #166 *“German Scheme Feedback: Vulnerability Assessment Methodology”* as requested by Jerry M.
 - o Jade added a comment last night stating that this issue still needs to be addressed.
 - o Reviewed “Vulnerability Assessment Methodology” Section of the Guidance document.
 - o This issue is reopened and will be deferred to the next version of Guidance document (version 1.2).
- Reviewed Issue #161 *“German Scheme Feedback: Security Problem Definition”*
 - o Jade provided additional comments and requested the issue be reopened.
 - o This issue is reopened and will be deferred to the next version of the Guidance document (version 1.2).
