

CC in the Cloud Technical Community (Cloud-TC) – Meeting Minutes

7:29 AM PDT 6/26/2024

Call to Order: 0802
Meeting Lead: Joshua BRICKMAN
Attendees: 17
Member Roster: 82
Next Meeting: Wednesday July 10th, 2024

Highlights:

~

Old Business:

- Review of previous meeting minutes by Garrett N.

New Business:

- Josh B announced that he received confirmation from Jon Rolf (NIAP) that the Guidance document has been forwarded to the CCDB for review as of June 14th, and that a review period of 4 weeks has been requested at which point comments will be sent back to NIAP.
- Josh B also announced that we have received feedback from the Australian Scheme on the published Guidance document.
 - o They are currently reviewing the CCitC documents as part of the CCDB and have the following comment from one of their reviewers:
 - *"I see this is testing on cloud of products. Is there further consideration of how CC applies to cloud services? E.g. a layer 4 security/firewall service offered natively that can be imported into a tenancy/VPC. Will this be something we would consider in the future"*
- Discussion on Australia's feedback
 - o Reviewed Guidance document to identify relevant sections that address their comment and drafted an email response during the call to provide these references. This email response was reviewed in real-time by those on the call and was sent by Josh B after the call.
- Jade S provided an update on Issue #143 *"For completeness, add Google to TOE identification section"*
 - o Google has responded to our various requests for input and have advised that after review of the Guidance document, they are not interested in providing any information for inclusion at this time. This issue is now closed.

Questions/Follow-ups:

~

End of Meeting – Adjourned 0851 PDT
