Old Business:

- Review of previous meeting minutes by Garrett N.

New Business:

- No response yet from Australian scheme regarding a meeting to go over our responses to their questions.
- Release of the updated guidance document during the previous Cloud-TC meeting was minor in nature and is available on the *cc-in-the-cloud.github.io* website but is not a major version update that will be posted to the CC portal.
- Discussion on the NIAP NICE event. Josh and Brandon will be attending.
 - o Agenda is unknown at this point however Jon Rolf indicated that it is intended to be an in-person industry event open to all those involved with CC.
- Began review and triage of German Scheme Feedback.
 - o Reviewed Issue #166 *“German Scheme Feedback: Vulnerability Assessment Methodology”*
 - Tagged as “To Incorporate” and “Question”.
 - In the context of NIAP, the notion of “Trusted Platform” will require FedRAMP High validation, which includes provisions for continuous vulnerability monitoring.
 - Jade’s input has been requested on whether the trusted platform could cover this question.
 - Anne G to investigate what FedRAMPs current requirements are surrounding continuous vulnerability monitoring and process for CVSS scoring and vulnerability downgrades.
 - o Reviewed Issue #162 *“German Scheme Feedback: Key Takeaways”*
 - Tagged as “Question” and “Future”
 - Undetermined as to whether this comment will result in an update to the guidance document or be discussion only.
 - o Reviewed Issue #161 *“German Scheme Feedback Security Problem Definition”*
 - To be addressed in version 1.2 of the guidance document.
 - Jade not in attendance to discuss her comments on this item
